Summary

Computer Engineering undergraduate (CGPA: 9.04/10) at Savitribai Phule Pune University with hands-on experience building end-to-end Machine Learning pipelines and full-stack web applications using Python, Scikit-learn, Flask, and MongoDB and Node.js. Demonstrated ability to take projects from data preprocessing through model deployment and production. Seeking a Software Development, Full-Stack, or Machine Learning internship to deliver measurable technical impact.

Education

B.Tech in Computer Engineering	<i>Aug 2023 – Present</i>
Savitribai Phule Pune University, Baramati, India	<i>CGPA: 9.06 / 10.0</i>
Higher Secondary Certificate (HSC)	<i>Mar 2023</i>
Yashwantrao Chavan Institute of Science and Jr College, Satara	<i>81.50%</i>
Secondary School Certificate (SSC)	<i>Mar 2021</i>
Shreemant Shivajiraje English Medium School, Phaltan	<i>93.40%</i>

Projects

SearchBoost AI – ML-Powered SEO Analytics Platform *GitHub*
Python, Machine Learning, Scikit-learn, Random Forest, Pandas, NumPy, Flask, Streamlit

- Architected an end-to-end machine learning pipeline in Python using Scikit-learn and Random Forest, training on 15,000+ webpage records across SEO features (keyword density, backlink count, page speed, content quality scores) to predict search engine rankings with **92% accuracy**, surfacing actionable optimization insights.
- Deployed an interactive Flask and Streamlit web interface that automates SEO audit generation and ranking predictions, reducing manual audit time by **78%** and enabling non-technical stakeholders to make data-driven content improvements without engineering support.

PhishHook AI – Phishing Website Detector *GitHub*
Python, Scikit-learn, Random Forest, Pandas, NumPy, Feature Engineering, Data Preprocessing

- Engineered a Random Forest classification model in Python with Scikit-learn, trained on a labeled dataset of **11,000+ URLs**, achieving **96.4% classification accuracy** by extracting and preprocessing 30+ features including URL length, IP-based domain detection, special character ratios, and WHOIS registration metadata.
- Improved model precision by **18%** over baseline by designing a robust Pandas and NumPy feature extraction pipeline that systematically eliminated false-positive phishing alerts, reducing mislabeled legitimate URLs by 62% and making the detector viable for real-world browser extension integration.

BlockCred – Academic Certificate Validation System *GitHub*
Node.js, React.js, MongoDB, Express.js, C++, SHA-256, REST API, HTML, CSS

- Built a full-stack MERN application (MongoDB, Express.js, React.js, Node.js) integrating a C++-powered SHA-256 cryptographic hashing engine via REST API, reducing academic certificate verification time from **5 business days to under 3 seconds** across a registry of **50,000+ records**.
- Eliminated institutional single points of failure in certificate issuance by designing a tamper-proof hashing system that assigns unique SHA-256 digital fingerprints to every credential, reducing the risk of academic fraud by making document forgery cryptographically detectable without a central authority.

Certifications

Bootcamp in Artificial Intelligence	<i>C-DAC India</i>
Python for Data Science	<i>NPTEL – IIT Madras</i>
Database Management System	<i>NPTEL – IIT Kharagpur</i>
Power BI for Beginners	<i>Simplilearn & Microsoft</i>

Technical Skills

Languages: Python, C++, Java, JavaScript, HTML, CSS

Machine Learning: Scikit-learn, Pandas, NumPy, Matplotlib, Feature Engineering, Data Preprocessing, Random Forest, Classification, Regression

Web Frameworks: Flask, Django, Node.js, Fast API, PyTorch

Databases: MySQL, MongoDB, PostgreSQL

Tools & DevOps: Git, GitHub, Docker, VS Code, Postman, Render

Core CS: Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks

Analytics: Power BI, Excel

Achievements

- Hackathon Participant**, 24-Hour National-Level Hackathon organized by **Cummins** at the College of Engineering, Phaltan (October 9, 2025); designed and prototyped a working technical solution under sprint conditions, competing against teams from institutions across Maharashtra.
- Academic Distinction:** Maintained a CGPA of **9.06/10** in B.Tech Computer Engineering at Savitribai Phule Pune University, ranking consistently among the top performers in the department.

Additional

Soft Skills: Communication, Adaptability, Problem-Solving, Time Management

Languages: English (Proficient) | Hindi (Proficient) | Marathi (Native)
